

VOC REHAB UK
WE GET PEOPLE BACK TO WORK

SPECIALIST VOCATIONAL SERVICES

Working with clients with a wide variety of physical, cognitive and psychological deficits, Voc Rehab UK provides independent vocational services for the legal profession, injury insurers and rehabilitation case managers.

Assessments and return to work solutions for injury clients and people with health impairments.

APPROACH

- Focusing on clients' personal abilities and their strengths, rather than the limitations and impairments brought about by sickness or injury
- Shifting from the medical rehabilitation model to the functional model, aiming to progress cases to the best possible outcomes

REPORTS

- Assessing clients' physical and cognitive abilities, as well as their limitations
- Clarifying capacity for work
- Identifying potentially suitable occupations
- Evaluating return to work barriers and developing solutions

ASSESSMENTS

High quality, evidence based assessments and reports under the Rehabilitation Code 2015 and Expert Witness reports compliant with Civil Procedure Rules

Voc Rehab UK evaluates physical and cognitive function from a vocational perspective, to match a client's abilities to suitable occupations

VOCATIONAL CASE MANAGEMENT

Whether an individual has lost their job due to a life changing injury or is absent from work due to sickness, we are able to provide a bespoke rehabilitation service, to help with their transition back to work

A number of vocational case management programmes are available

HELPING ADOLESCENTS WITH A DISABILITY

Many young people find it difficult to identify a career that would be suitable for them and which they would enjoy. It is therefore no surprise that an adolescent with a health condition is likely to struggle even more, as their functional limitations may prevent them from entering a career that they might otherwise have chosen.

Refer young clients to Voc Rehab UK for a Career Identification Assessment.

SELECTING THE RIGHT SUPPORT FOR YOUR CLIENTS

Whether your client has sustained a serious injury or has a health impairment and needs help with returning to employment, Voc Rehab UK has a solution

EVIDENCE BASED ASSESSMENTS FOR REHABILITATION OR LITIGATION:

VOCATIONAL ASSESSMENTS

Application of the latest vocational and functional tools, software and technology
Identifying suitable occupations and evaluating work capacity

CAREER REDIRECTION ASSESSMENT

COMPLETE FUNCTIONAL CAREER PROFILE

REHABILITATION ASSESSMENT OR EXPERT WITNESS ASSESSMENT

(Rehabilitation Code 2015) (Compliant with Civil Procedure Rules)

ACCORDING TO INSTRUCTIONS:

- Identifying suitable occupations
- Incremental return to work planning

- Establishing ability for work
- Clarifying functional abilities and limitations

COMPLETE FUNCTIONAL CAREER PROFILE

Evaluation of functional abilities and limitations (physical and/or cognitive). Identification of suitable occupations based on the objectively assessed function and in line with the client's interests, transferable skills, employment history and educational background.

CAREER REDIRECTION ASSESSMENT

Evaluation of transferable skills, work history, education and interests. Ascertaining suitable careers and work options, based on the client's reported situation, as well as the information that is available.

FUNCTIONAL PERFORMANCE SCREENING

Evaluation of functional abilities and limitations (physical and/or cognitive). Commenting on suitable work type. Establishing potential capacity for a specific job role.

'HANDS ON', PRACTICAL RETURN TO WORK SUPPORT:

VOCATIONAL CASE MANAGEMENT

Suitable for clients who are

NO LONGER EMPLOYED

STILL FORMALLY EMPLOYED

- Weekly progress reviews

Voc Rehab UK helps people to restore their **confidence** and **empowers** them to **achieve** timely return to work goals.

CONFIDENCE

Voc Rehab UK helps clients to build confidence in their abilities and overcome negative, limiting beliefs.

EMPOWERMENT

We believe in empowering our clients to take confident and independent steps in order to achieve their work goals.

ACHIEVEMENT

With Voc Rehab UK's support, many of our clients were able to return to work and to education and thereby significantly improve their quality of life.

Voc Rehab UK delivers evidence based Vocational Rehabilitation Services and applies a functional, rather than medical approach to the vocational rehabilitation process.

This enables us to identify suitable occupations and plan clients' return to work, based on their abilities rather than their limitations.

KATYA HALSALL
DIRECTOR, VOC REHAB UK

“Voc Rehab UK's Vocational Case Management Programme has helped our client to achieve so much!”

“Your expert report provided a clear picture of the claimant's abilities and her opportunities to secure a job in the current labour market. Understanding the claimant's functionality for her pre-injury role and her capacity for other occupations has helped us to negotiate a settlement.”

“Voc Rehab UK's report is very much evidence based, thorough and detailed. The outcomes of the report have really assisted me in pointing my client in the right direction as to what he might do.”

“Thank you so much for helping my client to have the confidence to apply for and gain meaningful employment.”
